Insurance

Kingston Mencap must consider its Activities and ensure that it has sufficient insurance for those Activities. Specific insurance may be required for one-off activities:

Kingston Mencap considers the following in assessing what insurance is required:

- The type and scale of activity
- Who is involved
- The venue of the activity
- Potential risks and any mitigation for them
- Impact on the general public other organisations

These factors will then be assessed so that appropriate cover is in place under one or more of the following policies held or acquired by Kingston Mencap.

- Public Liability
- Employers Liability
- Product Liability
- Property Insurance
- Vehicle Insurance
- Travel and Personal Insurance
- Trustee Indemnity Insurance
- Insurance cover for administration of medication
- Personal Accident Insurance

Kingston Mencap's insurance is discussed and agreed by the Trustee Committee.
