

Sensory Room Kingston Mencap

Look:

- Come and enjoy the lights, and UV lit up visual effects in the dark room e.g., Bubble tube, Fibre-Optic curtain, Touch Projector/ magic table, handheld lights & torches. UV lights, fluorescent material and paints, Shiny material when lit up etc.
- We also offer pre-booked sessions with Lina Graham (QTVI) to help you and your carer understand how you use your vision by offering Functional Vision Assessments (FVA)

Listen:

- There is an electronic keyboard and a Hi-fi for you to use.
- Musical instruments.
- If you have a hearing impairment, we have drums you can use to experience sounds by the vibrations. If required we will have access to a resonance board.

Touch:

- We have a selection of equipment you can explore by touch.
- We have a foot spa, bubble tube, fibre-optic lights and other equipment you can control with a simple one press switch and touch.

Communicate:

- We have a selection of One Press Switches and power link to enable you to control a variety of appliances when you Choose to do so. To encourage you to experience Cause and Effect and Choice making we at present have the following type of appliances e.g., Juice maker, table lamp, fan, etc.
- To encourage you to communicate you are able to pre- book sessions with Lina to explore communicating based on Intensive Interaction Strategies.

Contact: Michelle for bookings. (One to One or Two to One session's only).
